VOLUME 8

DEPARTMENT OF COMPUTER SCIENCE
UNIVERSITY OF DELHI

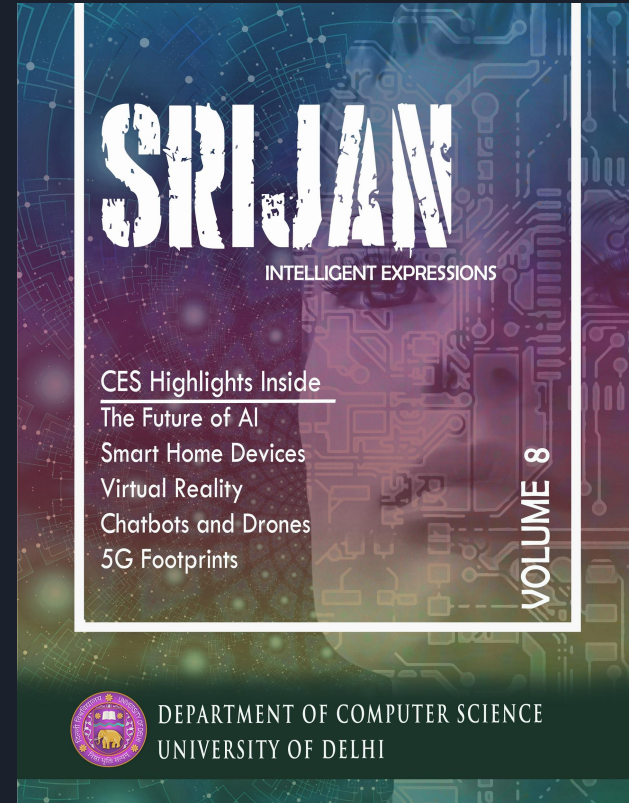

About SRIJAN

Srijan means creation.

Srijan started with an aim to capture the tremendous advancements in technology and lay out a bigger picture in a few words.

Since then, we have been trying to capture the highlights.

Srijan aims at giving a complete roundup of the emerging tech within the field of computer science.

THEME of SRIJAN 2018

CES
2018

CES or the Consumer Electronics Show is the most significant annual trade show organized by the Consumer Technology Association in Las Vegas.

CES is huge, and it matters.

CES has evolved to show us that what seems awkward and “for rich, lazy people” one year, becomes reasonable, practical, and available to everyone seemingly overnight.

SRIJAN 2018 HIGHLIGHTS

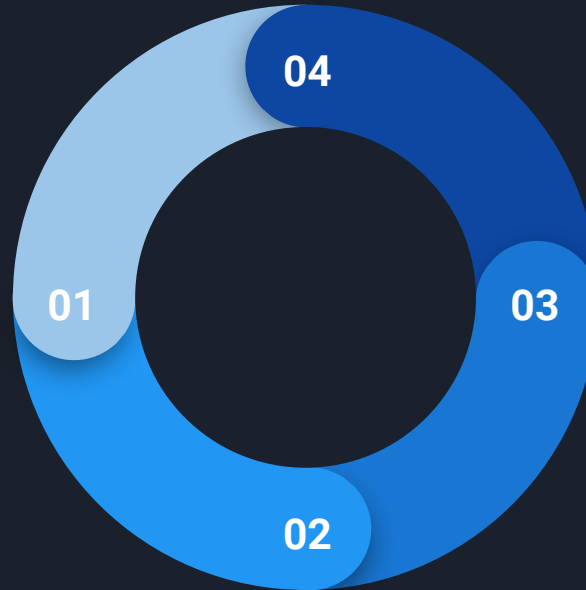

Virtual Reality

What if you could explore the surface of Mars? Swim with Dolphins? Fly a fighter jet?

Welcome to the world of Virtual Reality.

Smart Home Devices

Alexa, Google Home and others are now smoothly integrating with our homes.

Drones

At CES 2018, audiences experienced the magic of Intel technology as a fleet of 250 Intel® Shooting Star™ drones lit up the night sky.

Quantum Chip

Intel debuted the 49 qubit quantum chip which will revolutionize computing.
